Description	<p>A seminar on career awareness and aptitude program is organized by the Department of Training and Placement on 15-02-2018 by Mr.Shabana Banu is association with Manya Education .The session started at 11:30 AM by the speaker at the seminar hall. She discussed about how to improve the students interviewing skills, Interviewing is a skill in and of itself, one in which your ability to interact with the interviewer and to articulate your thoughts are factors that are just as important in getting the job as are the qualifications listed on your resume. Interview skills are an essential tool for all students in today's world of employment as there is increasing competition for job vacancies. This is largely due to the rise in graduation rates, consequently there are far more candidates applying for the same jobs. The keys to effectively interviewing include preparation, energy, enthusiasm, and strategy. Taking the time to do company research, understanding where you fit within the organization, and having a clear idea of what you can contribute is time well-spent. Learn about behavioral interviewing techniques. Prepare for the type of interview. Make time for practice, prepare answers to common questions. Remain professional from start to finish. Get insider details. Dress for the job. Prepare for small talk. Job seekers typically go to job interviews expecting the Employer to be focused on their experience, education and skills. You want to make sure you convey, as well as possess these qualities when preparing for your next interview. Understand the company and what it does. Totally, 0 students are benefitted by the session.</p>

Resource person/guest/organization	Mr.Anand Kulkarni,	
Description	<p>Princeton Institute of Engineering and Technology for Women has organized a seminar on “Student motivation and career guidance” at seminar hall on 8th March 2018.</p> <p>The morning session was commenced by guiding students in making better career choices in all domains of their interest and was given to them the information of the possible upcoming opportunities in both the government and the private sector. The speaker has rich experience of both industry and academics and the words of guidance proved to be the master stroke for many students. The session included students from all the streams. Students were enlightened upon some of the advanced aspects of information which is also one of the subjects of their academic syllabus. The session was highly informative and motivating. The speaker engaged the students in continuous one on one discussion which made it even more interesting. The speaker also answered lots of queries of the audience and the session concluded with a very interesting crossword contest, result of which was declared there itself. Students benefitted tremendously with this session and their engagement with the speaker proved to be an excellent platform to make strong and intelligent decisions for their careers.</p> <p>On a concluding note, H&S assistant professor thanked the Resource person for delivering such an important and necessary topic, and also showed gratitude to SITS for their support in organizing the workshop.</p>
