Description	<p>The speaker for guest lecture has been warm welcomed to the session on behalf of Princeton Institute Of Engineering And Technology For Women. The Coordinator has given a brief introduction about the speaker achievements and experience and Principal Madam too welcomed him for the session on behalf of the college.</p> <p>The speaker took over the session and delivered a lecture on Identifying Funding agencies for projects. Totally 47 members participated in this seminar. The main theme of this seminar is to promote excellence in research in higher education by supporting research programmes of University and College teachers in various disciplines. Traditionally, universities have been the centers of research. Although, the Government has a network of science and technology laboratories for research and development, the major base of researchers in science and technology remains with the universities. Therefore, university and college teachers need to be supported to meet this requirement.</p>
