Description	<p>A seminar on career awareness and aptitude program is organized by the Department of Training and Placement on 15-02-2018 by Mr.Shabana Banu is association with Manya Education .The session started at 11:30 AM by the speaker at the seminar hall. She discussed about how to improve the students interviewing skills, Interviewing is a skill in and of itself, one in which your ability to interact with the interviewer and to articulate your thoughts are factors that are just as important in getting the job as are the qualifications listed on your resume. Interview skills are an essential tool for all students in today's world of employment as there is increasing competition for job vacancies. This is largely due to the rise in graduation rates, consequently there are far more candidates applying for the same jobs. The keys to effectively interviewing include preparation, energy, enthusiasm, and strategy. Taking the time to do company research, understanding where you fit within the organization, and having a clear idea of what you can contribute is time well-spent. Learn about behavioral interviewing techniques. Prepare for the type of interview. Make time for practice, prepare answers to common questions. Remain professional from start to finish. Get insider details. Dress for the job. Prepare for small talk. Job seekers typically go to job interviews expecting the Employer to be focused on their experience, education and skills. You want to make sure you convey, as well as possess these qualities when preparing for your next interview. Understand the company and what it does. Totally, 0 students are benefitted by the session.</p>
