PRINCETON INSTITUTE OF ENGINEERING & TECHNOLOGY FOR WOMEN

NEWS LETTER

TECH FEAST 2K22

A NATIONAL LEVEL TECHNICAL SYMPOSIUM

MARCH -AUGUST 2022

About the College:

Princeton Institute of Engineering and Technology for Women (PETW) was established in 2009 under the stewardship of Dr S Prabhakar Rao, a great educationalist with excellent dedication towards value-based education system. His vision is to provide quality education to the poor and rural based girl students.

The college is located close to the Uppal X roads and spread in the sprawling campus with state of art laboratories, playground, digital library and hostel located in the campus.

The college offers 6 B Tech Courses: Computer Science and Engineering (CSE), Electronics and Communication Engineering (ECE), Civil Engineering (CIVIL) CSE-AI&ML, CSE-Data Science and CSE-Cyber Security

College also runs the second shift Polytechnic Courses in Computer Science and Engineering (CSE), Electronics and Communication Engineering (ECE), Civil (CIVIL) and Electrical Engineering (EEE) streams.

 Experienced and qualified faculty will show special attention on every individual student's academic and overall growth.

The placement cell of the college is very active and organizes regular training activities and conducts mock interviews to students. The literary club will always be in the forefront to encourage the student to develop their English communication skills from first year onwards

Dr S Prabhakar Rao, Chairman of the Vagdevi Educational Society is the man behind the success of Princeton Institute of Engineering and Technology for Women. Other institutions run under the aegis of Vagdevi educational Society are Princeton Degree and PG College, Princeton PG College of Information Technology, Princeton Pharmacy College, Princeton PG College of Management located at Ramanthapur, Hyderabad

Message by the Chairman

It is my great pleasure to extend heartfelt greetings to the readers of the second issue of the e-Newsletter of Princeton Institute of Engineering and Technology for Women(Princeton's Tabloid). Thanks to the medical community and the government of Telangana who took serious steps to control the spread of Covid19 virus in our state. I am happy to inform that AICTE has sanctioned 3 new B Tech courses in Artificial Intelligence, Data Science and Cyber Security from the AY 2020-21.

Although the newsletter format is limited in the amount of in-depth information it can provide, we will make every effort to describe briefly, our latest achievements in different areas of science & Engineering. I Congratulate the Principal, Editor and the team for bringing this e newsletter successfully.

LEAVING ONE LAST IMPRESSION

K.Vaishnavi Reddy

Head Student Coordinator

The Computer Science department of Princeton Institute inaugurated its first ever techno-themed fest with the name TECHFEAST 2K22 for two days in the month of july.Technical fests provides an opportunity for all of its participants to be a part of some interesting events and amazing games.

These fests also provides an opportunity to the students to improve and explore their skills .Organizing techfeast hits different from other events as all the students of all years are involved in it.This is the event that satisfies my graduation days and one of the memorable one where I succeeded in satisfying many people by implementing my ideas to make the event remarkable.

For the fantastic finish of any college fest,it needs the involvement,hardwork and dedication of the coordinators and organizers, which was truly reflected in the TECHFEAST.All in all,it was a successful mega event hosted by the CSE deptartment.

"Techfeast is a great young initiative and it'll be a stepping stone towards bringing together the cult of Tech lovers."

College fests offer a golden opportunity to socialise and grow leadership skills

V.Supriya
Student Event Coordinator

Few days ago,A collection of ideas and knowledge seen together in Princeton Institute of Engineering and Technology for women .In engineering cultural and technical events are equally important as education. Every student should experience this kind of events during their course of undergraduate studies.

IMPORTANCE OF FESTS

It signifies the need to work in a team for success.Technical fests implant the responsibility of every person in the team and tasks are assigned to the students based on their personalities.

These college fests aims to inspire the students to think innovatively and provide platform for scholars to share their knowledge.

Attending such kind of events gives knowledge on different streams of study like aptitude,seminars,quizzes etc..Those will be beneficial to students to learn along with fun.

Benefits of taking part in the fests

The organization of such events tests the leadership abilities of all folks involved.The most valuable lessons on time management and building relationships with people are taught in the mean time.

College events teaches the students to fabulously plan and bring ideas that are unique from others.The coordinators selected will be ready to handle all the stresses of the fest managing their regular classes.

However, Accomplishments and achievements aside,college fests are more about learning interesting things and capturing moments for life.

ABOUT EVENT

The CSE department of Princeton Institute of Engineering & Technology for women conducts two-days NATIONAL LEVEL SYMPOSIUM **TECH FEAST 2K22** on 06-06-2022 & 07-06-2022 with multiple events.

The event was organised by Dr . G . Arul Dalton, HOD of CSE department. The Tech Feast aimed to bring out the creative talents of students and to expose them to the current trends in the technical and professional fields.

The events conducted in this tech feast are:

- Paper Presentation
- Poster Presentation
- Technical Quiz
- Debugging
- Spontaneous Reaction
- Treasure Hunt
- Aptitude Test
- Games [Balloon blast, Ball blowing]
