THEME

The course is aimed at making the participants aware about the different optimization techniques and the tools available for this purpose. The participants will be exposed to application of Linux Programming. Although, the course will cover fundamental theoretical and algorithmic aspects of optimization, the emphasis will be on applied optimization using Linux Programming and its applications in the context of engineering.

CONTENTS

The following topics will be covered during the program:

- Basic concepts and classification of Linux Programming
- Objective functions and constraints
- Mathematical Modeling
- Nonlinear optimization
- Multiobjective optimization
- Linux Fundamentals & Programming
- Solutions of optimization problems using Linux Programming

INSTITUTE

Princeton Institute of Engineering and Technology for Women, Hyderabad was established in 2009 by Vagdevi educational society. In the field of
